

The challenge of the 80s came from the boys aging out of the program. St. Joseph Hall was built in 1984 for 20 young men to continue to grow at SLC. St. Joseph Hall contained living quarters on the first floor with dining and family rooms in the middle, and a large recreation room, laundry room and chapel underneath. Fr. Enzo Addari arrived around this time to assist.

Fr. Guanella Hall was built in 1988 to provide additional room for growth. It was a beautiful building with two wings that became a model for the future with a capacity of 20 residents.

In 2000, the care facility run by the Daughters of St. Mary of Providence Sisters in Northville, MI, closed. Ten residents from that facility became the first occupants of Fr. Guanella Hall, Our Lady of Providence wing. Many of those residents still live there today.

In the 1990s, SLC began more community outreach to raise funds to support the needs of the residents. This was the start of the Golf and Glory Outing, the IACL Dinners, the Dad & Lad Golf Outing along with many civic and religious groups holding summer BBQs and Christmas parties for the residents.

In 2010, SLC celebrated its 50th Anniversary, and decided to expand facilities once again. A new Development Director was hired, and the Legacy Campaign Committee was formed. A ribbon cutting was held in 2011 for the new Family Welcome and Orientation Center at the main entrance.
